

Eglah H Nywage

Electronics & Communications Engineer

I am currently a B.Tech ECE student at GITAM University (2024 Batch)

I've developed interests in Artificial Intelligence, Machine Learning, Control Systems, Modern Communications, Robotics Technologies, Data Science, Embedded Systems, Programming and Design Innovations.

I'm a good team player and I've exercised and sharpened my leadership, communication and problem solving skills through various channels of experience. I am flexible, passionate, adaptive, collaborative, creative, and self-driven individual.

I am an aviation and green energy enthusiasts, hoping to pursue my career as an inspiringly successful Avionics Engineer.

Experience

○ 2022

COSTECH & Sahara Ventures

Intern

As a part-time Intern I worked with COSTECH in bridging the gap between Technology, Science and Innovative Education in our country, alongside organizing STEM workshops to adapt the latest Technologies.

○ 2018-Present

Glah Children&Youths Foundation(GCYF)

Founder&Chairperson

GLAH CHILDREN AND YOUTH FOUNDATION(GCYF)- Is a Non-Governmental Organization which was registered on 08th October 2021 under NGO Information System of the United Republic of Tanzania with registration number OONGO/R/2393 at national level registration basis, its vision is to have a generation of innovative, educated and healthy children and youths regardless of being raised from a difficult environment.

○ 2019-2020

Gelson Universities Link (GUL), Dar-es-salaam

Academic Consultant

As an academic consultant, I worked with GUL effectively to assist students who aspired to pursue their studies abroad by organizing mentorship seminars and workshops which enabled students to find clarity on their future dream path intellectually.

○ 2019

Good Idea Printing Company (GIC)

Designer

As a designer and a digital creator, under GIC I utilized my designing skills including poster, logo designs and T-shirt printing.

○ 2018-2019

Tanzania Civil Aviation Authority, Dar-es-salaam

Project Intern

As a project intern and a group chairperson, I've conducted research on "THE EFFECT OF PRESSURE DURING FLIGHT PROPULSION"

The project was conducted under the supervision of the Airworthiness Engineer and other official TCAA officials it enabled us as a group to acquire practical knowledge and personally motivated and enlightened my passion in Aviation field.
